This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

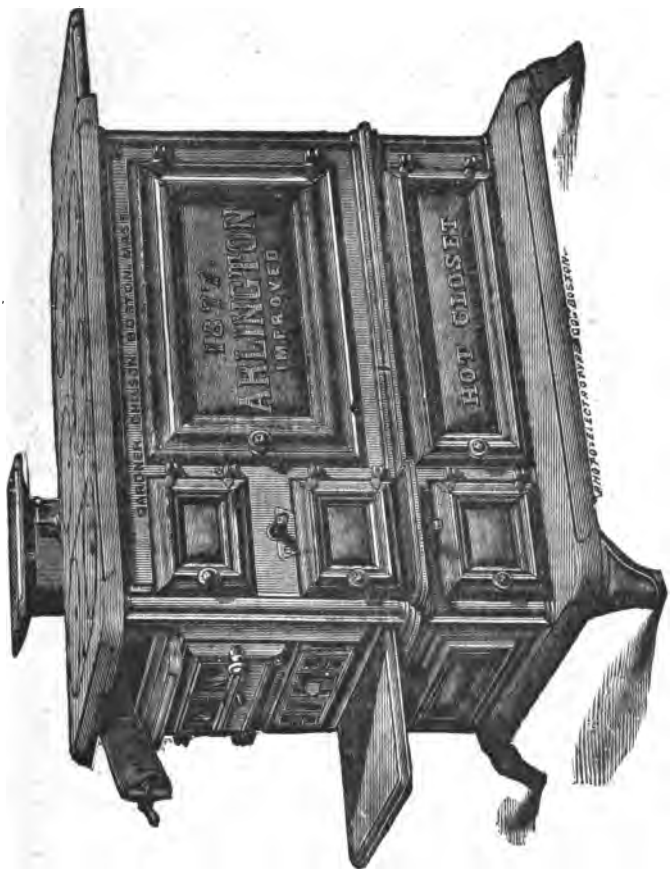
Chilson's CENTENNIAL WROUGHT IRON FURNACE, 1876-7.

THE ARLINGTON,

Chilson's Entirely New and greatly Improved PORTABLE RANGE 1877.

I desire to call special attention of every housekeeper in want, or who ever expect to want a STRICTLY FIRST-CLASS RANGE, to the great improvements over my old pattern Range, in **Broiling, Heating Water, Anti-Clinker Grate, Nickel-plated Trimmings, Towel Dryer, four extra Shelves,** and extra heavy, fine, smooth castings, of rich and beautiful design, *no place for dirt, rust, or grease to lodge to keep women scrubbing*, but always a clean surface. This beautiful Range has no equal in this country. This will be proved on examination and trial.



I also desire to call the attention of gentlemen in want of the most substantial and beautiful Range for brick-setting ever put up in any kitchen, to my **ARLINGTON BRICK RANGE,** which is acknowledged by all to be the most splendid piece of work, for a Range, ever got up. Also the **CHILSON BRICK-SET RANGE,** that has acquired such a high reputation in the use of over ten thousand Ranges in giving the most perfect satisfaction. This Range comes at less price than the Arlington, and is within the reach of all. A full line of Furnaces, Ranges, Stoves, etc., at the lowest market prices. Special attention given to putting up Furnaces and Ranges in any part of the country. Nothing but what is strictly first-class work is manufactured by me.

CODMAN & SHURTLEFF,

13 and 15 TREMONT ST., BOSTON.

MANUFACTURERS AND IMPORTERS OF

Surgical & Dental

INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:

TRUSSES.

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. N. B.—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club Feet, Etc. Also, Crutches of Various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf.

Together with many other articles for the use of the SICK and INVALIDS. Also, the largest and best assortment of

Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M.D., Chairman."

—AND—

WOMAN'S SUFFRAGE

STOVE POLISH.

Twelve Good Reasons why the "Woman's Suffrage Stove Polish" is preferred to all others:

1. It is the largest package of Stove Polish in the world. 2. It is the neatest. 3. It is composed entirely of Pure East India Plumbago. 4. It will cover more surface, and is consequently cheaper than any other kind. 5. It is not adulterated with cheap American or German Lead, or other worthless substance to give it weight. 6. It is free from objectionable silvery lustre, such as is easily tarnished by grease or dirt. 7. It produces the most enduring jet black gloss of any polish ever offered to the public. 8. It makes no dust and requires less labor in polishing. 9. It will polish any stove, hot or cold, as soon as applied, and requires no mixing with varnish or naptha, nor does any such deleterious ingredient enter into its composition. 10. It does not burn upon the stove, and is free from all obnoxious smell. 11. It will polish sheet iron, and preserve it from rust. 12. It is the handsomest polish in the world. **Hence, every Woman wants it.**
